The Nevada City Tree Tour

Nevada City's new printed Tree Tour is proving very popular with area residents and visitors.

Ellen Solomon

It's a self-guided walking (or driving) tour of 42 native and non-native trees in the downtown Nevada City area.

The trees are marked with painted leaves on nearby sidewalks.

The fold-out, illustrated guide is written by horticulturist Ellen Solomon, who describes Nevada City's trees as "interesting, outstanding and every thing in between." Her text covers tree location, identity and appearance along with interesting additions on local horticulture.

The brochures are available at the Nevada City Chamber of Commerce.
